Category	Label	Value
Bug ID	ID number	BUG - 004
	Reporter	Yaroslav Rudenko
	Submit date	30.09.2022
Bug overview	Summary	The "Payment Details" field is absolutely not filtered for the correctness of the data entered by the user when paying for the goods and confirming the order
	Reproducibility rate	3/5
	Screenshot	https://www.screencast.com/t/i5JMbTMeT
Environment	Operating system	Windows 10 Pro x64
	App version	Demo
	Browser	Chrome Version 105.0.5195.127 (Official Build) (64-bit)
Bug details	Preconditions	User is logged in
	Steps to reproduce	1. Go to link https://petstore.octoperf.com/actions/Catalog.action 2. Click 'Sign In' link 3. Enter your username and password in the input field 4. Click on "Cats" in the side menu bar on the left side of the screen 5. Let's choose the "Manx" cat and click on the link "FL-DSH-01" 6. Click on the button [Add to Cart] 7. In the "Shopping card" field, enter any quantity of goods and click on the button [Proceed to Checkout] 8. Start filling data in the field "Payment Details" with incorrect data and click the button [Continue] 9. Confirm your order in the "Order" field and click on the button[Confirm] 10, Order passed
	Actual result	The field "Card number" is filled in with any characters and then everything goes to order confirmation
	Expected result	The field "Card number" should be filled in only with numbers in the amount of 16. When filling in letters, it should give an error and not skip to checkout
